

Poem to Otley Townswomen's Guild

It's so very nice to see you all here,
I really feel I should let out a cheer, I don't think we have ever had a
Pandemic, I only remember a measles epidemic,
Even that did not last did not last very long.
Because then I was young and very strong
When this awful virus is over, no more house arrest for me.
I can go back to church on Sundays, and have our family home for tea.
This virus is a very strange thing to live through, but it is something we
All just have to do
My better half and I try to do everything that is right. We even sleep separately
at every night,
It's very boring to find new things for tea
I now find my wheelie bin goes out more than me
I work very hard to keep things clean, the inside of inside our oven can now be
viewed by the Queen
Sadly we didn't have any veggies that were home grown, so that's when our
freezer, came into its own, We have had no problems getting food for our
meals
Because we are so old we get Sainsburys delivery deals
I am using so much bread, flour and Heinz beans
When this is all over, I'll be lucky to still wear my jeans.
The saddest thing now for me in all this, is not giving our 6 grandchildren a big
hug and a kiss
No one knows how long before Corona Virus will end. I do hope it is soon or I'll
go round the bend!
